[1] On November 10, 2025, I held a case management conference to discuss the Parties' concerns about disclosing information to one another when responding to Order 3 of Order CB-CDA 2025-095.

[2] They stated that both SOCAN and MTAC would have to divulge sensitive information that they do not wish to share with the other party. The Parties offered to provide a narrative explanation instead.

[3] I permit the Parties to respond to Order 3 in this way for now. I will consider their responses and determine whether any further orders are required.

[4] The Parties stated that the Confidentiality Order does not require modification, and they requested no additional time to respond to Order CB-CDA 2025-095. As such, I do not change these.
